WORLD SMART CITY EXPO KOREA, 2022

General Information

World Smart City Expo 2022 is the largest smart city event in the Asia-Pacific region where governments, companies and experts from all over the world in the smart city field come together to create a city of the future.

WSCE 2022 features a wide array of programs including conference and seminars, G2G programs, business related events and exhibitions, as well as side events open to public participation for industry professionals, national and local governments, public institution representatives, and so forth.

Thank you for your interest in being part of WSCE.
